

INSTRUCTIONS

Electrex Caravan Supply Adaptor Code: CARSUPADA

Testing before use:

1. Make sure the female connector on the CARSUPADA has nothing connected.
2. **PLEASE NOTE:** This unit is not intended to be used with an extension lead.
3. Switch **ON** the MCB switch. If the switch turns off (trips) '**DISCONNECT THE UNIT AND DO NOT USE, SEEK ADVICE FROM A REGISTERED ELECTRICIAN**'
4. If the MCB switch stays **ON** turn **OFF** connect the Caravan or RV lead to the CARSUPADA, avoiding any strain on the lead.
5. Switch the MCB to the **ON** position.

Once in service:

- If the unit turns off (trips) at any stage, follow the above test procedure 1 - 5
- The CARSUPADA will trip due to an overload.
- If you believe there is an overload fault, switch off and disconnect some of the appliances and reset the MCB switch on the CARSUPADA.

IMPORTANT - please read before use:

- This unit is intended for **INDOOR USE ONLY**.
- Disconnect unit before carrying out any inspection. This is not a serviceable item and should not be dismantled.
- If the supply cord is damaged, return to the manufacturer or its service agent or similarly qualified person in order to avoid a hazard.
- **DO NOT USE IF UNIT IS DAMAGED.**
- **DO NOT DISMANTLE**
- **NOT INTENDED FOR PERMANENT INSTALLATION.**
- **IF UNIT BECOMES WET DISCARD OF STRAIGHT AWAY.**
- **NOT TO BE USED WITH ELECTRIC VEHICLES AND THEIR CHARGERS.**
- **LOAD NOT TO EXCEED 10AMPS (2400W) MAXIMUM.**
