CERTIFICATE OF COMPLIANCE

Date: 02/12/2016

Code or Series: FBMSA/FBMO/FBMD
Product Name/Description: Flush box metal.

This product has been manufactured to meet the following specification(s).

This product has been made with Galvanised Steel Sheet.

Notes: Steel has a melting point of about 1300° C, most house fires have an average temperature of 1100° C. Therefore most steel components will still be intact after the fire.

Material Specs: Thickness: 0.8mm
                               Impact test: Passed
                               Bend test: Passed
                               Coating weight: 80 (g/m2)
