STRONGEST CABLE PULLING
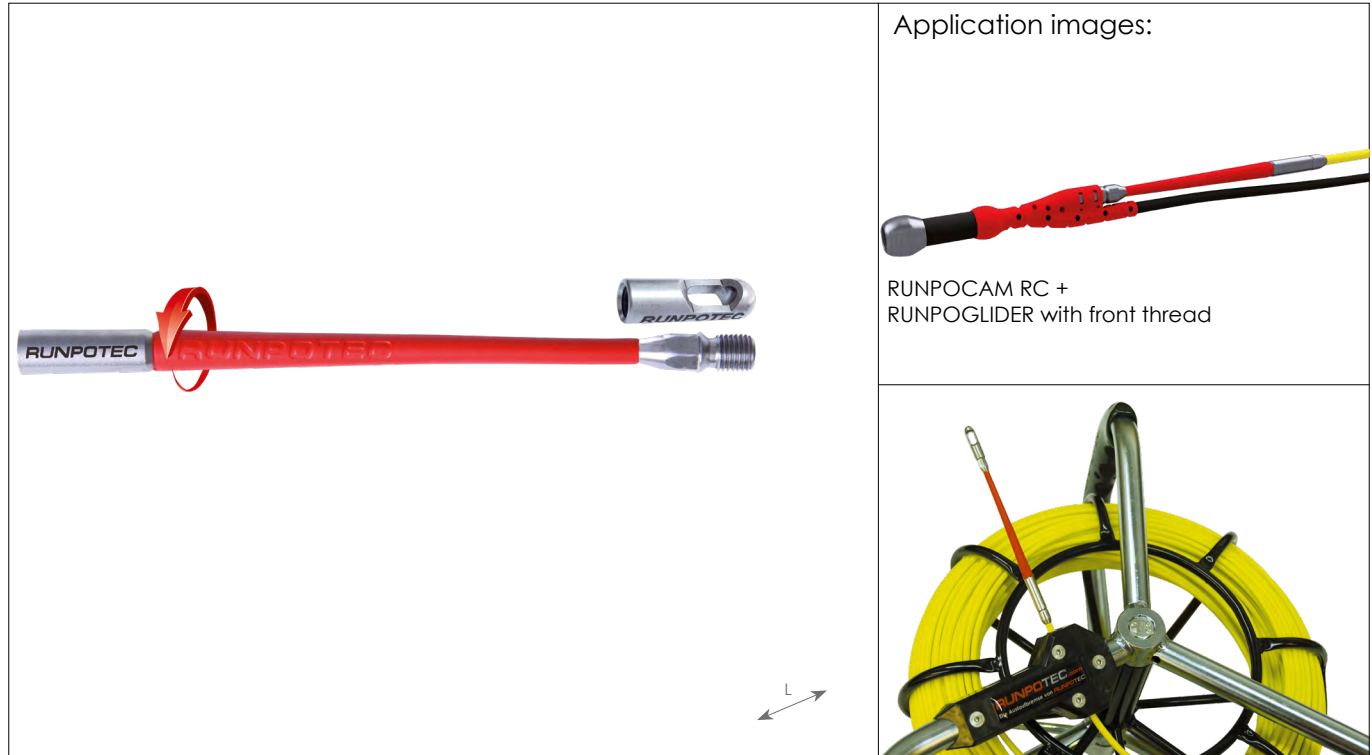

Application images:

RUNPOCAM RC +
RUNPOGLIDER with front thread

DATA

ITEM NO.	**RUNP20460**
WEIGHT KG	0,012 kg
DIAMETER	7 mm
THREAD	RTG Ø 6 mm with front thread
DIMENSION	Length 100 mm
EAN-CODE	9120045474855

ADVANTAGES

✓ **Ideally suited for RUNPOCAM RC 2**

✓ **Adaptable to various fiberglass rods, RUNPOSTICKS etc.**

✓ **Extremely good bending and sliding behaviour**

✓ **High tensile load**

DESCRIPTION

The RUNPOGLEITER with front RTG Ø 6 mm thread is optimally suited for the multifunctional camera developed by RUNPOTEC.
This allows the RUNPOCAM RC 2 to be adapted to various fibreglass rods or to the RUNPOSTICKS.
Of course the RUNPOGLEITER front thread can also be used as a viewfinder with extremely good bending and sliding properties and high tensile load with all Runpotec RTG Ø 6 mm threads. Also all RUNPOTEC cable pulling sleeves with RTG Ø 6 mm thread can be attached. The enclosed eyelet also allows for immediate pulling in of cables. An extra large eyelet hole provides for a higher cable intake of up to 7 x 2.5 mm². Also suitable for RUNPOSTICKS, glass fibre rod Ø 4.5 mm and Ø 6 mm.
Scope of delivery: 1 piece RUNPOGLEITER with front RTG Ø 6 mm thread incl. eyelet Ø 7 mm

Product Code: RUNP20460
