DESCRIPTION

The RUNPOMETER RM35 is a digital cable length measuring device which can be used to precisely measure cables, single conductors, ropes, pipes or hoses with a diameter of Ø 2 mm to Ø 32 mm. It is splashwater resitant- and dust resistant, extremely shock-resistant and thus ideally suited for the jobsite. The RM35 has 2 totalling buttons which can be used to add up the measured values as you work. A countdown function is also included, which can be used to measure predetermined cable lengths. The RM35 is equipped with a lithium-ion battery that has an extremely long runtime (100 hrs. continuous operation without backlighting). The battery can be charge using the integrated USB-C charging socket. The RUNPOMETER RM35 is perfectly stowed in the RUNPOTEC system case, which is also compatible with Sortimo cases. The RUNPOMETER can be easily connected to the X BOARD XB 300 or XB 500 cable unwinding system via the supplied belt and clip system. The belt length can be adjusted from 750 mm to 1200 mm. Alternatively, this belt can also be fixed to the connecting pad, thereby offering a fixation option for all conventional rolling systems.

Scope of delivery: 1 x RUNPOMETER RM35, 1 x belt with clip system 1200 mm, 1 x connecting pad, 1 x mounting plate system case, 2 x guide jaws grey (Ø 12 mm / 18 mm), 2 x guide jaws red (Ø 6 mm / 24 mm), 1 x USB-C charging cable, 1 x RUNPOTEC system case
